

Thanks To Mazeroski

# BUGS TAKE IT 10-9

## The Daily Courier

Vol. 57 Kelowna, British Columbia, Thursday, October 13, 1960 Fourteen Pages No. 62

ONE OF THESE BALLS GAVE BUGS 1960 WORLD SERIES

Danny Murtaugh, manager of the Pittsburgh Pirates, and pitchers Bob Friend, left, and Roy Face, pose with two balls,

one of which was blasted over the left field wall by Bill Mazeroski in the ninth inning today to give the Bucs their first

World Series victory in 35 years. Despite a shrewd comeback attack by the New York Yankees the Pirates proved an even

greater comeback squad by downing Casey Stengel's team 10-9. (Courier staff photo).

### THREE MICE ROCKETED 700 MILES INTO SPACE, RECOVERED ALIVE

CAPE CANAVERAL, Fla. (AP) — Three mice named Sally, Amy and Moe rocketed 700 miles into space today and were recovered alive and in good condition from the South Atlantic, 5,000 miles away. The air force said that a brief announcement from the recovery ship reported all three mice were alive when removed from a special sealed container which rode in the nose cone of an Atlas mis-07. They were the first living animals returned from this far in space.

### Khrushchev Demands U.S. Apology For Spy Flights

UNITED NATIONS, N.Y. (CP) — Soviet Premier Khrushchev today denounced U.S. spy plane flights as actually a step beyond the brink of war. He demanded a U.S. apology before the General Assembly. Khrushchev's demand came immediately after the assembly acceded to a Soviet demand for a full debate on colonialism. It was certain, however, that this meant countries under Soviet domination also would be discussed.

Khrushchev, demanding that the U.S. apologize for incidents such as the U-2 spy plane flight of last May, said if the U.S. government "will not wish to show good will and will not condemn the practice of sending its spy planes to the Soviet Union and other countries, the United Nations should in all strictness condemn such aggressive actions on the part of one of the biggest powers against other countries."

RAPS PROVOCATIVE ACTS "Such a policy of the U.S.A.," said Khrushchev, "should be condemned and stopped so that such provocative incidents would not lead the world to the brink of war." Khrushchev spoke calmly, from a prepared text. His address came after the assembly swiftly disposed of his proposal for discussion of immediate freedom for colonial and dependent areas, adopting it by acclamation after the United States supported it. The announcement, by U.S. delegate Francis Wilcox, came as a surprise.

### First Series Win In 35 Years

New York . . . 000 012 022- 9 13 1  
Pittsburgh . . . 220 000 051-10 11 0

Turley, Stafford (2) Shantz (3) Coates (8) Terry (8) and Blanchard; Law, Face (6) Friend (9) Haddix (9) and Burgess, Smith (7). W-Haddix. L-Terry. HRs: NYK—Skowron, Berra; Pgh—Nelson, Smith, Mazeroski. Pittsburgh wins world series four games to three.

PITTSBURGH (AP) — Bill Mazeroski's home run in the ninth inning today gave Pittsburgh Pirates a sensational 10-9 victory over New York Yankees and their first world series championship in 35 years.

Mazeroski's lead-off homer in the bottom of the ninth on the second pitch by relief pitcher Ralph Terry soared over the left-field wall and touched off wild scenes of celebration in Forbes Field.

The winning blow came just after the Yankees had scored two runs in their half of the ninth to tie the thrilling series finale 9-9.

THRILLS AROUND The seventh and deciding game provided one thrill after another for the 36,683 fans at the ball park and the millions more watching and listening on television and radio.

The Pirates had taken a 4-0 lead after two innings on Rocky Nelson's two-run homer in the first inning off Bob Turley and Bill Virdon's two-run single in the second off rookie Bill Stafford. The Yanks finally broke through starter Vernon Law for a run on Moose Skowron's homer in the fifth.

Then the Yanks erupted for four runs in the sixth and a 5-4 lead on Law and relief ace Elroy Face. Yogi Berra's three-run homer climaxed the big rally.

REFUSE TO DIE The Yanks rapped Face for two more runs on three hits in the eighth inning for a 7-4 advantage and it appeared the Pirates were dead. But nobody told that to the Bucs.

They came ripping and tearing back with five runs in the eighth inning, climaxed by Hal Smith's long three-run homer.

Face had gone out for a pinch-hitter in the ninth and the Pirates called on Bob Friend, a two-game loser. Friend didn't last long.

Bobby Richardson, a menace to the Pirates throughout the series, singled to start the ninth. Pinchhitter Dale Long singled to right, sending Richardson to second and finishing Friend.

Lefty Harvey Haddix came in and rubbed out Roger Maris on a foul to the catcher. Mickey Mantle singled, scoring Richardson and sending Long to third.

MANTLE MOVES SMARTLY Gil McDougald ran for Long. Berra's sharp grounder inside first base was grabbed by Rocky Nelson who stepped on first to retire the batter. But Mantle, in a brilliant move, slid back and regained first base, evading Nelson's tag. Since Nelson had retired Berra, he had to tag Mantle to put him out. McDougald scored on the play to tie the score at 9-9.

Bill Skowron then forced Mantle at second on a grounder to Dick Groat.

That set it all up for Mazeroski.

BOBBY RICHARDSON

### B.C. Electric Must Replace 3,000 Windows

VANCOUVER (CP)—Almost all of the 3,000 windows in the 21-storey British Columbia Electric Building will have to be replaced because of fog between the dual panes of glass.

About 75 windows have already been replaced in the towering slab of glass and aluminum, and a company spokesman said today most of the others will probably have to go. He would not estimate the cost of replacement.

The sealing on the windows is failing and condensation has begun to gather between the panes. There is 50,000 square feet of glass in the building, but not all of it is affected.

The \$6,500,000 building, opened 3½ years ago, was described by former National Gallery director Alan Jarvis as a "good deed in a naughty world." It was listed recently by 19 out of 20 leading Canadian architects in a survey of the most architecturally significant buildings in Canada since 1945.

A company spokesman said Wednesday that B.C. Electric is planning legal action in connection with the problem.

The firm which installed the windows is no longer in business. However, the windows were guaranteed by a bonding company.

### Geologist Believed Dead, Sold Boat To Missing Man

MISSION, B.C. (CP) — A man who sold the 26-foot pleasure craft Sea Esta III to missing Vancouver businessman Daniel Renix has himself been presumed drowned in a car mishap here.

Charles H. Stowell, 41, of Burnaby apparently plunged in his car off a causeway while driving from Hope to Vancouver. His car was found Friday in the Stave River but there was no trace of the body.

Vancouver police said today

Stowell and Renix were casual friends. Stowell, a geologist, and another man sold the Sea Esta III to Renix five years ago and had been on a nodding acquaintance with Renix since.

Renix, 50, of Vancouver disappeared two weeks ago after telling his family he was taking a prospective buyer out in the Sea Esta III at Vancouver. The boat, with the anchor missing, was found intact at a wharf.

Stowell's wife denied, however,

published reports that Stowell and Renix were partners in a mining venture several years ago.

"The only business contact my husband had with Dan Renix was selling him the boat," said Mrs. Stowell.

Police also said they could find no trace of any other connection between the two.

### Urgent Callup Orders Issued In Rhodesia

SALISBURY, Southern Rhodesia (Reuters)—Government authorities today issued urgent callup orders to white members of the special volunteer force in the wake of bloody racial disturbances.

A government spokesman said Prime Minister Sir Edgar Whitehead probably will explain the reason for the callup when he makes a broadcast to the country tonight.

The callup came 48 hours after publication of the Monckton commission report drew bitter criticism from white settlers in this self-governing British colony.

The commission, headed by Lord Monckton and appointed by the British government to make recommendations on the future of the Rhodesian Federation, recommended that its three constituent territories should have the right to secede.

Shouting a bustive language, they threw rocks and used flag-sticks to poke at the 1,000 policemen forming a cordon at the gate. Six policemen were hurt, none seriously.

The demonstration, a second since Asanuma was stabbed to death Wednesday by a young right-wing fanatic, was kept within bounds by powerful details of police. Its mood appeared to be one of sorrow rather than deep anger.

Ikeeda, who was at his private home three miles away, earlier in the day had denounced the use of violence.

In his first public statement since O'toya Yammaguchi, 17, stabbed the 61-year-old Asanuma.

CHILDREN TESTIFY PINCHER CREEK, Alta. (CP) Five children, ranging in age from seven to 13, testified Wednesday at the second day of the preliminary hearing of a charge of murder against Andrew Creighton, 21, of the Blood Indian Reserve. Creighton is charged with shooting his wife, Delores. The woman had two children and her mother was found dead Feb. 2.

Dismissed Clerk Wins Judgment VANCOUVER (CP) — A Supreme Court judgment of \$3,885 was awarded Wednesday to John L. Jones who was fired earlier this year as White Rock city clerk.

The Supreme Court awarded the judgment on the grounds that Mr. Jones was wrongfully dismissed. The award represents six months pay and other fringe Mr. Jones would have received.

Also dismissed following a stormy council session in February was assessor John Neill. The only reason given for the dismissals was "economy."

IN THE UNITED STATES Steel Use Outpacing Production

TORONTO (CP) — Steel consumers in the United States now and for the last few months have been using more steel than is being produced, Roger M. Blough, chairman of the board of United States Steel Corporation, said today.

Addressing the National Industry Conference Board, he said American steel consumption this year is expected to substantially exceed that of the last two

### 17,000 Demonstrators Shuffle Through Streets Of Tokyo

TOKYO (CP) — A flag-waving, lantern-carrying crowd of 17,000 students and white-collar workers shuffled through the streets of Tokyo tonight in a massive demonstration of mourning for the assassinated idol, Socialist chairman Inejiro Asanuma.

The 3½-hour parade was generally orderly. There was a spurt of violence when 50 ultra-leftist students, members of the Zengakuren Association, broke away to storm the gates of Prime Minister Hayato Ikeeda's official residence.

Shouting a bustive language, they threw rocks and used flag-sticks to poke at the 1,000 policemen forming a cordon at the gate. Six policemen were hurt, none seriously.

The demonstration, a second since Asanuma was stabbed to death Wednesday by a young right-wing fanatic, was kept within bounds by powerful details of police. Its mood appeared to be one of sorrow rather than deep anger.

Ikeeda, who was at his private home three miles away, earlier in the day had denounced the use of violence.

In his first public statement since O'toya Yammaguchi, 17, stabbed the 61-year-old Asanuma.

CHILDREN TESTIFY PINCHER CREEK, Alta. (CP) Five children, ranging in age from seven to 13, testified Wednesday at the second day of the preliminary hearing of a charge of murder against Andrew Creighton, 21, of the Blood Indian Reserve. Creighton is charged with shooting his wife, Delores. The woman had two children and her mother was found dead Feb. 2.

Dismissed Clerk Wins Judgment VANCOUVER (CP) — A Supreme Court judgment of \$3,885 was awarded Wednesday to John L. Jones who was fired earlier this year as White Rock city clerk.

The Supreme Court awarded the judgment on the grounds that Mr. Jones was wrongfully dismissed. The award represents six months pay and other fringe Mr. Jones would have received.

Also dismissed following a stormy council session in February was assessor John Neill. The only reason given for the dismissals was "economy."

IN THE UNITED STATES Steel Use Outpacing Production

TORONTO (CP) — Steel consumers in the United States now and for the last few months have been using more steel than is being produced, Roger M. Blough, chairman of the board of United States Steel Corporation, said today.

Addressing the National Industry Conference Board, he said American steel consumption this year is expected to substantially exceed that of the last two

years, and to approach the record levels of 1953-57. Steel ingot production, however, will range between 100,000,000 and 105,000,000 tons, compared with the average of 115,000,000 tons in the period 1955-57.

Mr. Blough said the explanation lies in changed inventory policies—a change from inventory building in the first quarter to inventory cutting since, which he ascribed to the following reasons:

"Capacity in the steel industry that assures ample and quick supply; the prospect of labor force for some time to come; foreign sources of supply if domestic shortages develop; better management techniques in control and planning of inventories; the cost of funds for carrying inventories; and an increasing squeeze on profits which makes the carrying of even normal in-

### Tension Eased In Congo By Army's Strong Man

LEOPOLDVILLE (AP) — The Congolese army commander and strong man, Col. Joseph Mobutu, said today he has no intention of making war against the United Nations over the fate of deposed premier Patrice Lumumba.

Mobutu thus pulled the rug from under his provisional government of technicians, which two days ago asserted that if the United Nations did not permit Lu-

mumba's arrest they would order a military assault against UN troops guarding him.

In an apparent attempt to save face for the technicians he put into office, Mobutu announced the Congolese army blockade of Lumumba's plush residence would continue indefinitely.

"And if Lumumba dares to leave his house again to hold political meetings I will arrest him immediately," Mobutu asserted.

Mobutu's statement, made to reporters after a two-hour conference with UN officials, served to ease the tension which has built up since the provisional government flung its ultimatum to the UN high command. The ultimatum was rejected by UN Congo Chief Rajeshwar Dayal of India.

Nixon-Kennedy Meet On TV Again Tonight

By THE CANADIAN PRESS Vice-President Nixon and Senator Kennedy meet again tonight in their third television-radio debate on presidential issues.

### American And 12 Cubans Die Before Firing Squad

HAVANA (AP) — A young American adventurer and 12 Cubans were executed today for plotting to overthrow Prime Minister Fidel Castro.

The American was Anthony Sarba of Somerville, Mass. He went before a firing squad in Santiago with seven Cuban companions. Havana radio stations reported five other Cubans were executed in Santa Clara.

Sarba and his companions had been convicted only hours before by a revolutionary military court to set up a guerrilla front in Cuba.

The eight prisoners were led before four different firing squads near Santiago, two at a time.

The U.S. Embassy appealed to Castro's government Wednesday night for a stay of execution and clemency for Sarba, but this apparently was ignored.

Twins Born To Lumumba's Wife

BRUSSELS (AP)—Mrs. Patrice Lumumba, wife of the deposed Congolese premier, gave birth to twins today in Leopoldville, the Belgian Radio reported.

"Freedom Of Mankind Depends On Anglo-American Alliance"

SCARBOROUGH, England (CP)—The freedom of mankind depends fundamentally on the Anglo-American alliance, Britain's foreign secretary told the ruling Conservative party's annual conference here today.

The Earl of Home also declared to his fellow party members that he "rejected absolutely" the conception that if Britain got too close to the United States, this country would "inevitably be dragged along behind them as a dot was dragged on a lead."

Home spoke before the delegates passed a resolution lauding Prime Minister Harold Macmillan for his "leadership" in trying to "secure relief of world tensions." There was only one dissent-

ing vote. Delegate A. C. Alexander called the resolution "placardous and misleading."

"If the government tells you the international situation is improving, it deceives you."

"Rather, it is growing worse."

Home, whose speech was cheered loudly, said that Europe "by now would have been overrun by the Communists" had it not been for the presence of the U.S. there following the Second World War.

"So long as the Communists act on the doctrines of Stalin with force as a legitimate instrument in trying of foreign policy," he continued, "then communism must be militarily contained."

PEARKES LEAVES FOR B.C. POST

OTTAWA (CP) — Former defence minister Pearkes was given a warm-hearted sendoff, touched with a little sadness, when he left Ottawa today to take up his new post as lieutenant-governor of British Columbia.

The cabinet interrupted a morning meeting to go in a body to Uplands airport where 75 members of the former minister's personal and military staffs and members of the diplomatic corps attended the departure.

Socred's Election Confirmed In Yale

HOPE, B.C. (CP)—The re-election of Social Credit member Irvine Corbett in the Yale constituency in the Sept. 12 provincial general election was confirmed today at the completion of a judicial recount of ballots.

Mr. Corbett, who had held a 25-vote majority over CCF candidate Evan MacDougall in unofficial counting, saw his margin increased to 29 votes in the recount.

WEATHER

Forecast: Increasing cloudiness becoming cloudy with a few showers this afternoon, clearing overnight with frost in the early morning. Sunny with cloudy periods Friday, light winds. Low tonight and high Friday at Kelowna 32 and 58. Temperatures recorded Wednesday 32 and 58.

## LIBRARY PROPOSAL WILL BE TOPIC

VERNON (Staff) — Discussion of the proposed combination library and museum is on the agenda of Vernon Ratepayers' Association October meeting.

The meeting will be held Wednesday in the Central elementary school library.

Although so far, a discussion of the city's refusal to grant land for a rest home for elderly people has not been scheduled, ratepayer president William Halina told The Daily Courier he had "a feeling the thing may come up."

## Lumby Child Hurt In Fall From Verandah

LUMBY (Correspondent) — A Lumby youngster is in hospital this week as the result of a 14-foot fall from a verandah.

Little Susan Davis, who is almost three years old, was playing on the back verandah of her home when the railing gave way and she tumbled to the ground.

Her parents, Mr. and Mrs. Sonny Davis, say it is expected Susan, who broke her leg between the knee and hip, will be kept in hospital for at least four weeks.

Lumby has had more than its share of accidents recently.

Mrs. E. S. Somers, wife of the Anglican minister here, is also in hospital for treatment of a broken arm, cracked ribs and a badly bruised knee. Mrs. Somers was injured in a fall in her garden.

She was planting bulbs near the top of a rockery, when a rock on which she was standing shifted, and she stumbled backwards over the rockery to the lawn, a drop of nearly six feet.

Only a year ago Mrs. Somers broke her other arm when she tripped on the stairs of the apartment where she was living in while waiting completion of the new vicarage.

Over the weekend, 13-year-old Jimmy Blaney, son of Mr. and Mrs. Reg Blaney, had a spill on his bike while delivering papers. He suffered a badly sprained foot.

One fairly serious muscle injury came out of the high school Invitational track meet when 14-year-old Pat Bonnin pulled a muscle while participating in a sprint. Pat is a son of Mr. and Mrs. Eugene Bonnin.

**BODY FOUND**  
NELSON (CP) — The body of Lorne Maxwell Martin, about 50, of Pasco, Wash., who is believed to have died within the last three weeks, was discovered by two hunters in the Wasa Lake area, 18 miles north of Kimberley, 60 miles east of here, RCMP said Wednesday. They said they suspect Martin died of carbon monoxide poisoning.

**NEW ROUTES**  
Use of wide-angle lenses in an aerial mapping project of the Great Barrier Reef is expected to reveal new shipping lanes through the 1,000-mile chain of coral islands and reefs.

## TODAY'S STOCK QUOTATIONS

TORONTO (CP) — Western oils today featured a stock market where lack of business prospects continued to gnaw at prices.

On index, western oils were down .42 at \$4.09, industrials dropped .44 at \$4.94, golds eased .28 at \$5.20 and base metals dropped .16 at \$49.87.

The 11 a.m. volume was 452,000 shares compared with the 461,000 shares traded at the same time Wednesday.

Mexican Light paced industrial losers with a drop of 1/4 at 9 1/2. Dominion Glass jumped 1 1/2 at 72. Among mines, Hudson Bay and McIntyre-Porcupine both showed the way down with losses of 3/4 at 43 1/2 and 25 1/2. Gunnar was the only senior uranium affected, off 15 cents at \$7.45.

Western oils moved forward on the strength of a handful of fractional gains.

Quotations supplied by Okanagan Investments Ltd., Member of the Investment Dealers' Association of Canada

## Rifle Group Plans Season

VERNON (Staff) — The British Columbia Dragons Rifle Association will hold a practice and make plans for winter shooting Sunday at 7 p.m. in the small bore rifle range at the drill hall on 15th Avenue.

All shooters interested in 22 calibre shooting are invited to attend. Deadline for team entries in the postal shoot has been set for October 22 and this event will be discussed at the meeting. It is hoped that several four-man teams can be entered in this event for 1961.

Pistol competitions for the winter months will also be discussed. These will be limited to .22 calibre.

Club officials stress the point that entrants do not have to own their own rifles in order to qualify. Many association members are prepared to lend rifles to would-be shooters.

## GRANDSTAND BURNED PRINCE ALBERT, Sask. (CP)

A 3,000-seat grandstand at the exhibition grounds was destroyed by fire Wednesday. Cause of the blaze is not known.

## FROSTS DEAL KILLING BLOWS TO ANNUALS IN VERNON GARDENS

VERNON (Staff) — Killing frosts during the last few days have pretty well finished tended annuals in Vernon and district. Dahlias are dropping, zinnias have "had it" and many types of vegetables have been destroyed.

Readings have sunk as low as 28 degrees (or four degrees of frost), according to Vernon weatherman Frank Reade.

## Pioneer Family Achieves Record In Dairy Output

SALMON ARM (Staff) — A pioneer district family with a fine dairy herd produced its millionth pound of butterfat last week.

The cream was received at the SODICA plant in Salmon Arm from E. H. Naylor and Son of Deep Creek.

An early resident of the district, Mr. Naylor arrived in Endersby June 30, 1889. He had walked from Sicamous to Endersby, after missing the regular boat trip on the Red Star, which plied between Sicamous and Endersby before the railroad was built.

There was only one settler in the territory between Sicamous and Endersby at that time, a Mr. Bacon. His home was situated at the foot of what is now known as Salmon Arm Hill.

Mr. Naylor worked for some time on a cattle ranch south of Endersby, and in the fall of 1889, built a cabin on his present farm in the Deep Creek area.

He then worked on the railroad right-of-way on the line between Sicamous and Vernon.

Mr. Naylor built the first log house at Deep Creek in the spring of 1890. There was no road in to the area at that time. He received legal entry for his homestead in 1892.

**GRADUAL GAIN**  
In 1895, Mr. Naylor bought six calves from a rancher, Mr. Lam-ley, at Endersby. He began to ship cream to the Salmon Arm Creamery in 1915. Mr. Naylor was one of the first 25 producers shipping to the creamery at that time.

Later, when Captain Dunlop of Finty brought Ayrshire cattle from Scotland, Mr. Naylor purchased one cow, one bull and a heifer which he gave to his son, Harry.

Since then, the Naylor family has milked daily more than 20 cows on their Deep Creek farm and have supplied hundreds of head of registered Ayrshires to dairymen throughout the country.

Mr. and Mrs. Naylor have two daughters, Helen of Victoria and Margaret of Summerland, and one son, Harry, who runs the farm at home.

**"PULL PIN SOON"**  
MONTREAL (CP) — The 111,000 non-operating employees on Canada's railways must vote to strike if they hope to maintain their economic dignity and their bargaining power, Frank Hall, the non-ops' chief negotiator, said Wednesday night. And "if you mark your strike ballot the right way," Mr. Hall told more than 500 Montreal members of the 15 unions representing the non-ops, "your negotiating committee won't wait long before setting the date to pull the pin."

## Armstrong's Junior Matric Class Lauded

ARMSTRONG (Correspondent) — Most members of Armstrong's Junior matriculation class took subjects beyond the minimum required by the department of education.

District superintendent Floyd Irwin told a recent meeting of the board of trustees that of the graduating class of 29, all but five students had acquired additional credits by taking extra subjects. Three took one extra subject, 16 took two, three took three and two took four.

Some of the extra credits were earned in the field of advanced subjects. Nine graduated had taken three majors, five took four and four took five. Mr. Irwin commended the teaching staffs of both schools for their work.

Contract for a new school bus has been awarded by Armstrong-Spallumcheen school district to Okanagan Garage Limited, Armstrong.

The firm submitted a tender of \$7,018.44, plus delivery charge and sales tax. Bids were received from two Vernon firms and two in Vancouver.

Teachers of Intermediate grades are conducting an experiment to improve spelling in the school.

Meanwhile, primary teachers are meeting to survey the reading program in the first three grades.

## DATES ANNOUNCED

# Winter Carnival Is Well In Planning

VERNON (Staff) — Vernon's 1961 Winter Carnival will take place Jan. 27 to Feb. 5.

This was announced at a meeting held Wednesday night by the Winter Carnival Society in the basement of the Allison Hotel.

Purpose of the meeting chaired by Board of Trade President Frank Oliver, was to acquaint local service clubs and civic groups with plans for Vernon's first Winter Carnival.

Fifty guests of the Vernon Winter Carnival Society heard general chairman Frank Melvin explain in detail the carnival program. He urged all local service clubs and organizations to co-operate with the Society in participating in the 10-day event.

**SNOWFLAKE BALL**  
The kick-off will come Jan. 20 when a Snowflake Ball will celebrate selection of Vernon's Car-

nival queen. Local girls, sponsored by Vernon service clubs, will compete in the contest on the basis of popularity, personality and beauty. The winner will go to the Pacific National Exhibition in 1961 as Miss Vernon, as well as reigning over the Winter Carnival.

Publicity planning for the carnival included mailing letters to all Boards of Trade throughout the Pacific Northwest, requesting their aid in publicizing the event. Response has been enthusiastic in almost all cases, reports publicity chairman Alan Giles. This co-operation, combined with local enthusiasm, leads Society directors to expect a highly successful carnival.

"Vernon" blue and white Winter Carnival toques will be sold during the carnival to create en-

thusiasm and publicize the event locally.

One of the biggest events of the carnival will be the 1960 Western Canadian Ski Championships which will be held at Silver Star from Jan. 25 to Feb. 4. An estimated 400 contestants will enter the events. Anticipating a large gallery, the Winter Carnival Society has made a parking lot for 400 cars at the scene. Also under construction is a ski jump at Silver Star which will be ready by carnival time. This marks the first time the Western Canadian Ski Championships has been held here.

On Jan. 27, following the official crowning of Miss Carnival Queen in an ice palace in Polson Park, a parade will proceed to Vernon Civic Arena for an ice show presented by the Vernon Skating Club. Saturday, Jan. 28, will see a gigantic winter carnival parade throughout Vernon's streets, featuring bands, floats and other participating groups.

Other events during the 10-day carnival will be announced later. Directors of the Vernon Winter Carnival Society are as follows: Dr. E. M. Stevenson, Harvey Gee, Elmer Roberts. General chairman is George Melvin; secretary, Ivy Hayden; program, Ed Sherwood; finance, Vic Harwood; publicity, Alan Giles.

## Toastmasters Begin Season With Installation Of Officers

VERNON (Staff) — Al Kaulbeck, best speech. General evaluator was Bill Arnott.

Mr. Kaulbeck and other officers were installed at a dinner and dance held recently at the Allison hotel.

Toast to the ladies was proposed by Peter Tassie, with Lorraine Galloway replying.

District lieutenant governor Lionel Mercier, introduced area governor Alan Hill, who installed the new slate of officers.

They are Mr. Kaulbeck, president; vice-presidents, Bill Fulton, Peter Tassie; secretary, Bill Arnott; treasurer, Ron McFarland; and Russell Large, sergeant-at-arms. They will hold office for the next six months.

Toastmaster for the evening was George Yochim, who presented speakers John Gracey, Monty Foster, Douglas Moore and Ron McFarland. John Gracey won the shield for the evening's

**STARVED THEIR CHILD**  
PHILADELPHIA (AP) — Last Thursday, Ida Abel, 22, gave birth to her sixth child. Early this week she and her husband, Gerald, each were sentenced to nine to 18 months' imprisonment. Both pleaded guilty to allowing their three-month-old daughter, Dawn, to starve to death last December.

# Kelowna Trade Board May Decide To Change Its Name

trade boards adopt the "chamber of commerce" title. In 1959 of more than 800 such organizations throughout Canada 76.5 per cent had done so; New Westminster and Burnaby recently switched to it; the Penticton and Vernon boards are reported to be contemplating the change over; and the revised Board of Trade Act will be called the "Chamber of Commerce Act."

A proposal to recommend the change to a general meeting was unanimously passed at a meeting of the Kelowna board's executive council in June, when it was formally moved by Mayor R. F. Parkinson and seconded by A. M. Duncan.

Urging support for it Monday the executive points out: Tourists and visiting businessmen almost invariably ask for the "chamber of commerce" and find the present title confusing; to visitors from the United States and Great Britain "board of trade" implies a government agency; at present the board's mail, generally addressed to "Kelowna Chamber of Commerce," often goes to the Jaycees; there is no record of any chamber of commerce changing its name to "board of trade."

## New Books At Local Library

By ELISABETH SCOTSON

The great dramas now being enacted on the world stage should make all of us aware of the forces at work at this crucial point in man's history, for the struggle for power in the post-war world is a struggle that concerns not only the politicians but each and every one of us.

A timely analysis of the situation is given in Hugh Seton-Watson's new book "Neither War Nor Peace," which describes the early conflicts in Europe and Asia, and consequent international relations, and concludes with a detailed narrative of the last six years in the light of underlying social and political questions. It is a disturbing picture of today's tragedies, but one that might help all interested people to understand the complexity of our current dilemmas.

One of the most famous leaders in the field of contemporary thought is Bertrand Russell, and some time ago the BBC television service produced a series of unrehearsed dialogues between Lord Russell and Woodrow Wyatt, a British MP.

## RELIGION VS. ATHEISM

These talks have now been published in book form and need less to say they are lively, informative, and frequently witty. In all these discussions this self-styled "happy pessimist" answers in his usual practical and pensive way, never failing to offer food for thought, so that "Bertrand Russell Speaks His Mind" is a book that not only philosophers and intellectuals but every reader can enjoy.

## Show For Sportsmen To Be Staged By Boys' Club

Following preliminary investigations the executive of the Kelowna Boys' Club have decided to stage the first of what is hoped to be annual Sportsmen's Show in the Kelowna Arena in the latter part of April, 1961.

This will be a sportsmen's show in every sense of the word and there will be something of interest for all ages. Present plans stress indoor entertainment along with interesting and informative displays by dealers and manufacturers of sporting equipment of all kinds.

Enthusiastic reception has been given the Kelowna Boys' Club by a cross-section of those people who will be represented in this show, the executive is presently studying the formats of several large and successful sportsmen's shows, that is the Spokane Sportsmen's Show, with the idea of adapting some of their successful features that will make this show one of the finest ever presented in the Interior of British Columbia.

## Kelowna Bar Pays Tribute To Mr. Justice T. G. Norris

"Being personally acquainted many judges welcomed but had with your capabilities I know you will contribute a great deal to our judiciary—the province has always been fortunate in the bench of which you are now a member."

So stated E. C. Weddell, QC, Wednesday in welcoming Mr. Justice T. G. Norris, who was sitting in Kelowna for the first time since his appointment to the British Columbia Supreme Court.

Mr. Justice Norris practiced law in Kelowna from 1922 until 1936 when he moved to Vancouver.

Mr. Weddell said the occasion caused him to recall with feelings of nostalgia the great days and great legal battles when the judge was his colleague at the Kelowna bar.

T. F. McWilliams said that in the course of more than 40 years in practice in Kelowna he had seen

never experienced such "deep personal pleasure" as in congratulating Mr. Justice Norris on his appointment.

"I have never doubted elevation to the bench was part of your destiny," Mr. McWilliams continued "you bring to it a wealth of experience gained during a long and brilliant career at the bar."

Mr. McWilliams concluded by saying he was glad to see the judge looking so well and that the vigor they all knew in the old days had not been dimmed with the years.

Donald Fillmore, QC, recalled that he had originally come to Kelowna because Mr. Justice Norris was then practicing here.

"Having practiced with you, I learned the value of your advice and friendship," he said "it gives me great satisfaction to welcome

you back as a judge."

Norman D. Mullins, president of the Kelowna Bar Association, said the younger lawyers in the city were proud of the bar's traditions and doing everything to maintain them, and were proud of men like Mr. Justice Norris.

"You were a member of the Vancouver bar when appointed to the bench," he stated "but here you'll always be regarded as a member of the Kelowna bar."

Mr. Justice Norris said it was with great happiness he returned to the city he used to call home, to meet old friends.

"I have thought of you all often throughout the years in Vancouver," he said "and always remembered the kindness I had experienced here—I think the factor of kindness which so often appears in our profession is of the greatest value."

## Progress On Veterans' Camp Plan

The North Okanagan Zone Canadian Legion has taken an option on 900 feet of lakeshore property situated on Gardom (Loon) Lake near the Enderby-Salmon Arm highway prior to building the North Okanagan Senior Veterans Holiday Camp.

Purpose of the camp is to give senior veterans a holiday away from home to those who could not otherwise have one.

"Electricity and telephone lines" said officials "are presently within one half-mile of the 100 acre site. The site itself is ideally suited for the construction of the proposed camp."

Work on the project will be on a volunteer basis embracing all branches in the North Okanagan. Financing will largely be by donation.

## FALSE CLAIMS COST MAN \$267

Making false statements of his earnings to the Unemployment Insurance Commission cost a Peachland man a total of \$267 in Kelowna district court today.

Allan McKinnon pleaded guilty to five charges of defrauding the commission between March 1 and May 1.

The court was told he had received sums totalling \$186 by claiming benefits for weeks during which he had actually been earning.

McKinnon told Magistrate D. M. White it would take him "about five years to raise money to pay the fine."

Magistrate White: "I have no sympathy with you. You defrauded the government not once or by accident but deliberately five times. It's time you learned to stand on your own feet. If you cannot undertake to pay the fines in a reasonable time you must go to jail for three months."

McKinnon finally intimated he might be able to make arrangements for payment and was released on condition he does so.

## SPUR TO INTEREST IN STOCK EXCHANGE

Discussing the continuing effort of the Vancouver Stock Exchange to heighten interest of British Columbians in ownership of shares of leading B.C. industries, and also talking over the current commercial context

In which \$12,500 in stocks of such corporations are prizes, are, left to right, George C. Bradley, president and general manager, of a B.C. oil firm, Harold W. Lefever, chairman of the Board of Governors, Van-

couver Stock Exchange, and John Buchanan, chairman of the Board and President of a B.C. packing company. They are gathered in front of part of the "Big Board" of the exchange.

## Read This Carefully And Watch Your Driving

What happens to flesh and blood, steel and glass in the split second that a human being is being hurled to eternity in an auto crash?

Out of automobile crash research at Cornell University Medical College comes this slow motion reconstruction of the sequence of events when a car travelling at 55 miles an hour hits a tree. This is a gruesome story, but we think it is a lesson which every car driver should read and remember every time he or she gets behind the driving wheel.

In one-tenth of a second the front bumper and chrome frosting of the grill collapse; slivers of steel penetrate the tree one and a half inches or more.

In two-tenths of a second the hood crumples as it rises, smashing into the windshield; spinning rear wheels leave the ground; grill disintegrates; fenders come in contact with the tree forcing rear parts to splay out over the front doors; heavy structural members of the car begin to act as a brake on the terrific forward momentum of the 2½-ton body; the driver's body continues to move forward at the vehicle's original speed, a force of 20 times gravity, his body weighing 3,200 pounds; his legs ramrod straight, snap at knee joints.

In three-tenths of a second the driver's body is now off the seat, torso upright, broken knees pressing against the dashboard; plastic and steel frame of the steering wheel begin to bend under his terrible death grip;

his head is now near the sun visor, his chest above the steering column.

In four-tenths of a second the car's front 24 inches have been completely demolished, but the rear end is still travelling at an estimated 35 miles a hour; the driver's body is still travelling at 55 miles an hour; the half-ton motor block crushes into the tree; the rear of the car, like a bucking horse, rises high enough to scrape bark off low branches.

In five-tenths of a second the driver's fear-frozen hands bend the steering column into an almost vertical position; force of gravity impales him on the steering wheel shaft; jagged steel punctures lung and intercostal arteries; blood spurts into his lungs.

In six-tenths of a second the force of the impact is so great that the driver's feet are ripped from his tightly laced shoes; the brake pedal shears off at the floor boards; the chassis bends in the middle, sheering body bolts; the driver's head smashes into the windshield; the rear of the car begins its downward fall, spinning wheels digging into the ground.

In seven-tenths of a second the entire writhing body of the car is forced out of shape; hinges tear, doors spring open; in one last convulsion the seat rams forward, pinning the driver against the cruel steel of the driving shaft; blood leaps from his mouth, shock has frozen his heart. He is now dead. And the elapsed time for all this—just seven-tenths of a second.

If you are driving this weekend, take care.

## Conscious But Not Obsessed

Canadian problems and points of view are still unknown territory to most people overseas.

"I did not know that the Canadians had become acutely nuclear-war-conscious," writes a British columnist, usually well informed. "In the big towns, so a friend just back from Canada tells me, there are displays of fallout shelters of the pattern which the Canadian government recommends. . . I do not know why the Canadians have their shelter obsession; perhaps it's because of the fashionable Arctic missile route."

The number of Canadians who possess fallout shelters, or have any intention of acquiring one, certainly doesn't equal 0.01 per

cent of the population. Far from having a shelter obsession, Canadians are stoically reconciled to the belief that there's no defence against nuclear attack.

On the other hand, it's certainly true that we are nuclear-war-conscious. And why not? For military purposes, this country has become an annex to the U.S. Therefore, in the event of war, it's liable to direct assault as well as the hazards of lying athwart that Arctic missile route.

Canadian public opinion, as External Affairs Minister Green has told the United Nations Assembly, is strongly for nuclear disarmament. But it's clear that what Canada has to say on this subject needs to be said a little louder.—Financial Post.

## Even Leopoldville's Zoo Begins Going To Seed

By BERNARD DUFRESNE

Canadian Press Staff Writer

LEOPOLDVILLE (CP) — Just like many other things in the Congo, Leopoldville's zoo is going to seed.

The animal cages are dirty. The grounds, covered by fallen leaves, are unattended. The animals are starving.

The privately-owned zoo is occupied by a wide variety of animals captured in African jungles. There are a few animals native to North America and Europe.

They all look sick and hungry. During a two-hour tour of the zoo, this reporter saw only one

Congolese attendant to take care of the 100-odd cages and pits. He spent most of his time refilling the two gorilla water buckets.

The gorillas, goaded by a group of Pakistani soldiers who beat a rhythm by clapping hands, kept up a sporadic foot-stomping dance around their cages, winding up by tossing the water bucket to the scurrying, laughing soldiers.

**FOOD SHORT**

Then the gorillas, who smoked lighted cigarettes tossed in by soldiers, climbed the iron bars and screamed with anger.

Congolese who often visit the zoo said that because of the food shortage in the city, government officials will not eat-meat food for the zoo.

The entrance fee is 10 francs (20 cents) for adults and five francs (10 cents) for children.

There is a variety of monkeys, African deer and antelopes, leopards, elephants, wild hogs, parrots, owls, and multi-colored

smaller birds, ostriches and a couple of lions. There is one giraffe.

North America's animal kingdom is represented by a huge Kodiak bear kept in a big pit about 15 feet deep. There are a couple of black bears, three raccoons, a coyote and a red fox who hobbles on semi-paralyzed hind quarters.

A seal swims lazily in a pool of dirty water. A grass snake occupies a glass

cage with a couple of cobras on one side and a half-dozen pythons on the other.

If food is scarce for animals, it's scarier for unemployed Congolese. An old man fished quietly in the crocodile pen, his fishing rod poking through the iron fence.

A bucket at his feet held about a dozen fish the size of a man's finger. His supper that night would be spartan.

than half the total, a minimum of 260.

New York, with 45 electoral votes, holds the greatest power of all states. Next come Pennsylvania and California with 32 each and Illinois with 27.

A candidate can lose in 38 states and still win if he captures the electoral votes in New York, California, Pennsylvania, Illinois, Michigan, Ohio, Texas, Indiana, Kentucky, New Jersey, Massachusetts and Wisconsin. They have 272 electoral votes between them.

**THE SOUTH A FACTOR**

But such a combination of victories is highly unlikely. The Midwest is traditionally Republican territory; the south Democratic. So far, the Democrats have failed to crack much of the Republican Midwest.

But Nixon seems to be making inroads in the south where recentment has been voiced about Kennedy's strong views about helping depressed Negroes. Opposition also has been voiced about Kennedy's Roman Catholic religion.

Electors are pledged to cast their official ballots to reflect the popular vote in the state. But there's no law preventing an elector from bolting his pledge.

In 1948 president Truman swept Tennessee but one of the 12 state electors bolted his pledge and cast his ballot for a third party, a nominal one.

In case of an electoral college tie, choice of a president is referred to the House of Representatives, with each state restricted to one vote.

**BIBLE BRIEF**

He who is slow to anger is better than the mighty; and he who rules his spirit, than he who takes a city.—Proverbs 16:32.

"Among all my conquests," said the dying emperor Valentinian, "there is but one that now comforts me. I have overcome my worst enemy — my own

torious candidate must get more haughty heart."

**COLLEGE LARGER**

This year with the addition of Alaska and Hawaii to the union, the electoral college has grown to 537 electors. The vote is split 50-50.

Single copy sales price, 5 cents.

"STARK DISCRIMINATION AGAINST US WESTERN MINERS!"

## No Ship Has Sailed Along Canada's Third Sea Front

By TOM FAIRLEY

ISACHSEN, Sverdrup Islands (CP) — No ship has ever sailed along Canada's third ocean front of tightly-packed islands stretching much of the way from Alaska to Greenland along the Arctic Ocean.

Probably none ever will since the northern coast is obstructed by pack ice winter and summer. Yet this sector of Canada's boundary now is the scene of a vast hydrographic survey.

Why a hydrographic survey where no ship can go? The explanation is in the fact that this is only the beginning of something much bigger. On the heels of the hydrographers and guided by their map of the sea bed go scientists to study the earth's crust beneath it, the composition of the bed itself, the ocean water above it and the ice covering the ocean.

The result after many years will be a many-sided collection of scientific knowledge of the Canadian side of the Polar basin.

This is Canada's chosen way of entering the field of scientific polar research in which the Soviet Union has been active since 1937, the Americans since 1952.

It's the Canadian government's Polar Continental Shelf project, which has just finished its first six-month season of field work in the Elles Ringnes Island sector of the 1,500-mile northwestern frontier.

Elaborate and expensive facilities are needed for the work out on the polar ice. Everything at the Isachsen weather station where the project is based must be brought by air from the RCAF station at Resolute Bay, 350 miles away. And, apart from motorized toboggans for short runs, transportation to and from the field parties on the ice is also by air—single-engine Otters from MacMurray Air Service, Uranium City, Sask., and Bell and Sikorski "choppers" from Aurifer Helicopter Services, Montreal.

Then, so that scientists can always know exactly where they are on the ice, \$250,000 worth of Decca radio-navigational equipment from England was installed in the aircraft and at three points along the front of the islands.

The Decca system provides an instantaneous geographical "fix" for the scientists, often working far beyond the sight of land. Reading the heavens is much too slow and unreliable for today's pace of scientific work.

Among the scientists are geologists, geographers, biologists, zoologists and glaciologists studying the islands and collating on the ice with their colleagues, the oceanographers.

The project is entirely Canadian, a government operation under direction of the department

of mines and technical surveys. One significant effect of the project is to place Canadian citizens on the islands for the first time in any numbers.

Indeed, sovereignty rather than science was the first consideration in 1958 when the cabinet approved the project. For years Canada's title to the Queen Elizabeth Islands rested on token occupation by a few government posts along the southern and eastern edges. The only other settlements were weather stations at five points operated jointly by Canada and the United States. Most of the islands were uninhabited and in the Canadian Arctic, a whole Americans outnumbered Canadians 300 to 1.

In 1957 and early 1958, just before the project was approved, there were several developments with significant bearing on the situation:

1. Launching of Sputnik and the ensuing hue and cry for more fundamental research of all kinds in the West. This led to demands by the U.S. early in 1958 for intensified work in the scientific field.

2. First Arctic cruise of the Nautilus, American nuclear submarine which in 1958 crossed the top of the world under the polar ice—evidence of a new line of military thought and another reminder for Canada of its neglect of polar research and, specifically, of its ignorance of the waters of the Canadian archipelago.

3. Compilation in Ottawa of geological data collected in the islands since 1955, revealing the virtual certainty of a new oil province; and the knowledge that oil might be found under the sea bed as much as under the islands. The oil rush in the islands started in January, 1959, and 40,000,000 acres now are under exploration permit with regulations carefully designed to favor Canadian investment.

4. Convening at Geneva early in 1958 of a laws-of-the-sea conference at which Canada seized its opportunity to press for protection of each country's right to resources in the continental shelf along its own coasts. This point was adopted before the conference ended and became international law.

These and no doubt more elusive factors evidently convinced the cabinet that the far northern islands could become a great national asset; that Canada's position urgently needed safeguarding by presence of more Canadians on the islands; that scientific exploration as a national policy was the logical way to achieve this and that a polar shelf study would be ideal since it would take account of all chief

concerns — military, economic, scientific and political.

Every two or three years under present plans the project will move to a new sector of the Canadian Arctic boundary, strengthening Canadian rights, preparing the way for prospectors and enhancing Canada's name in world science.

## OTTAWA REPORT

### Fourth Great Milestone

By PATRICK NICHOLSON

The Yalta Conference, the Berlin airlift and the Korean War are the three great milestones of post-war world history; the great political battles of the 1945-1977 Cold War, one might say.

A fourth great battle of the same category, perhaps even more important, is now shaping up on the floor of the General Assembly of the United Nations, meeting in New York City.

Up till last month, the two big blocs of the Free World, consisting of the 23 Western Nations and the 20 Latin-American nations, formed a safe numerical majority in the 82-member United Nations.

Even if all the "uncommitted" nations of Africa and Asia and the Middle East lined up with the nine nations of the Communist bloc controlled from the Kremlin, the Free Nations could not be outnumbered on an important vote.

But the admission of 15 new African nations has upset that assured balance. Nigeria, which emerged from colonial status to full nationhood last week, will shortly be admitted; and Cyprus was made a member last month. So there are now 98 members of the UN, and soon there will be 99.

The statement of the Free World now must face the brutal fact that the NATO, SEATO and Latin American groups of nations are no longer sufficiently numerous to ensure that the United Nations Assembly can be regarded as an instrument of western policy.

**DEMANDS OF UNDERPRIVILEGED**

Although the Kremlin is today the most threatening centre of imperialism ever known to the world, it can and does malevolently scream protests at the "imperialism" of the west—of which at least Britain's post-war policy has shown to be abandoned.

The hungry backward nations of the world, especially the emerging nations of Africa and Asia, are ripe for unscrupulous exploitation on the UN stage. It would not be hard for the bosses of the Kremlin to formulate a resolution which would attract the support of those new nations in a solid phalanx, and to vote

the West down to defeat.

Soviet Premier Khrushchev certainly did not travel all the way to the UN for fun, or because he had nothing to occupy his time at home. The unprecedented gathering of heads of government, which is making this meeting of the General Assembly an unplanned World Summit, marks the extent to which the significance and importance of the expansion of the United Nations has been recognized all over the world.

**DIEFENBAKER STARS**

As the reactions of the world press have clearly shown, Canada was the first nation to star at this meeting, when Prime Minister Diefenbaker made his eloquent appeal for reasonableness in world affairs.

His courageous outspoken speech, without doubt the most significant he has ever delivered, achieved a success which, in this World Series period, could aptly be described as hitting a home run with the bases loaded.

It was a performance of perfection which even his unrelenting opponent, and bitter critic Hon. Lester "Mike" Pearson — himself no mean performer at past UN meetings—generously applauded.

But true, convincing and sincere though words may be, they are not enough today. We are fighting a war for the future of mankind, for the very continuance of human life on this planet. We must by some means achieve that humanitarian objective, that continuing aim of Canadian foreign policy, the outlawing of The Bomb. This will not be done until the Free Nations deliver something better than the Cold War promises of the Kremlin.

We in the West enjoy a standard of living, based on an economy of waste, which is an insult to our professed principles of Christianity in the face of the want and starvation in other parts of the world.

Until our statesmen devise a means of exchange which will enable world trade to match supply with demand, and hence for our rotting food surpluses and the food unproduced by our unemployed workers into hungry mouths in other lands, mankind will never move easy.

get your  
**crib board**  
from NABOB today

New from Nabob — a unique combination crib board and ashtray for only \$1.75 plus a label from NABOB regular or instant coffee. Smart black and white plastic, 10" in diameter, with a generous sized ashtray, removable for easy cleaning. Circular scoring board for 2, 3 or 4 players.

Enjoy crib games with a cup of delicious NABOB coffee at your side. Whenever you're working or entertaining, nothing beats deep, rich NABOB coffee.

As soon as the canisters began to ease off their operations last week, the Chinese commenced to pour out of town on their return to the Coast. Small parties are leaving daily, and on Saturday 52 left in a body.

Mr. R. Layritz came up from Victoria on Monday and spent a day or two inspecting the Layritz Company's local nursery.

## Winfield Couple United At Lovely Fall Ceremony

Brimming with white apricot and pink red and gold decorated the Grace Baptist Church when Glenora Winfield, daughter of Mr. and Mrs. Gustav Wageman of Winfield, became the bride of Frank Arthur Colton, son of Mr. and Mrs. Fred Colton of Winfield, early in September. The Reverend E. H. Nikkel officiated and the soloist, Edward Gallacher of Oyama accompanied by Floyd Saylor of Kelowna, sang "Willow Tree Goes".

Given in marriage by her father, the pretty bride wore a gown of white silk organza, with a fitted bodice inset with delicate French lace, scooped neckline and short sleeves. The full floor-length skirt was appliqued with bands of lace, and an iridescent crown of sequins held her full elbow-length veil. She carried a bouquet of gardenias.

The bride's sister Miss Sharon Wageman was maid-of-honor and the bridesmaids were Miss Judy Colton and Miss Ernie Reiswig. Miss Carol Roberts was junior bridesmaid and young Maureen Reiswig was flower girl. The attendants were dressed alike in copper-colored sheaths with bow belts, and matching wide bow hats, and they carried bouquets of copper-toned chrysanthemums with copper bows.

The best man was the groom's brother Mr. William Colton and the ushers were Mr. Rex Reiswig and Mr. Edward Heimstera.

After the ceremony a reception for 175 guests was held at the Kelowna Aquatic. The toast to the bride was proposed by her uncle Mr. J. Siebel of Malakwa, B.C. and was responded to by the groom, and Miss Emma Wageman of Vancouver and Miss Shirley Woodley of Kelowna presided at the urns while Mrs. Lesley Pour of Vancouver was in charge of the bride's table. The mother of the bride received in a moss green sheath with matching three-quarter length coat, a moss green pill box hat, and beige pearls. The bride changed to a purple suit with a grey fur collar, a purple pillbox hat and black gloves. The groom wore a brown suit with brown accessories and a trip to southern points. On their

MR. AND MRS. FRANK ARTHUR COLTON

return the newlyweds will reside in Glenora. Out of town guests came to Kelowna for the wedding from Dawson Creek, Nakusp, Malakwa, Kamloops, Vernon, Winfield, Vancouver, Wenatchee, Seattle, Spokane and Los Angeles.

## PEACHLAND

PEACHLAND—Mrs. Fred Topham Sr. has returned from a holiday of three weeks spending visiting relatives at Burns Lake and on Vancouver Island.

Mrs. P. Sellers is a house guest of Captain and Mrs. A. G. Courquin from Montreal.

Mr. and Mrs. Gordon Bingham of Cloverdale were visiting at the home of Mr. and Mrs. Archie Flintoff at the weekend.

In Vancouver for the holiday weekend were Mr. and Mrs. Lloyd Bawden and Norman Schulberg.

Mr. and Mrs. A. M. Moore have been attending the Rock and Gem Show in Vancouver.

In town for the Thanksgiving weekend were Mr. and Mrs. George Clare and son Bobbie of Vancouver at the home of Mr. and Mrs. Jack Garraway. Also home from York house was Gwen Garraway and a friend, Sue Tyler. Other Vancouverites visiting were, Mr. and Mrs. Gary Topham and three children, at the Fred Tophams; Mr. and Mrs. Doug Shaw and Miss Marjorie Shaw at the Lorne Shaws, Trepanier; Mr. and Mrs. Jim Gray and two sons, Ken and Brian, at the home of Mr. and Mrs. Al Strachan; Mr. and Mrs. Bob Daly, Mr. and Mrs. W. Pearson, from North Vancouver at the Howard Simeys; Mr. and Mrs. Ken Moore and daughter, Marcia, from Puntzi Mountain, and Miss Carol Moore from Vancouver, at the A. M. Moores, Trepanier.

## SWINGING PARTNERS

By M.J.I.

Square dancers enjoyed a gay party in Westbank Saturday night. Bill French of Oroville was M.C. and guest callers were Scotty Hitchman of Winfield, Ches and Ev Larson of Kelowna, Chuck Ingalls of Peachland, Ray Fredrickson of Summerland, and Fred Frouk of Oliver.

The novelty decorations depicting the various "rounds" were very much enjoyed by all. Bill and Leona taught a cute little mixer called the "Manning Mixer".

The Round Dance Family Party in Vernon on Monday was very much enjoyed by old and young alike. Les Boyer was the M.C. Guest callers and dancers with their families attended from various points to enjoy the rounds and the squares and a very nice family get-together.

Saturday, Oct. 15 is the first party night of the season for the Summerland Pairs and Squares. This dance will be held in the Youth Centre Hall in Summerland. Bob Emerson of Omak is the caller. Buffet supper will be provided.

Glancing to next week for

classes about to commence: Vernon: Beginners in St. Josephs School, Friday, Oct. 14, at 8 p.m. Buttons and Bows are the sponsors.

Kelowna: Beginners in the Junior High School, Monday, Oct. 17 at 8 p.m. Intermediates on Thursday, Oct. 20 at 8 p.m. Wagon Wheelers are the sponsors.

Westbank: Beginners in the Community Hall, Monday, Oct. 17 at 8 p.m. Westside Squares are the sponsors.

Peachland: Beginners in the Athletic Hall on Wednesday, Oct. 19 at 7:30 p.m. Totem Twirlers are the sponsors.

A quick look ahead to next weeks party night. In Vernon on Friday, Oct. 21 the Kalamalka Squares of Vernon will hold their regular party night in the Scout Hall with Vic Grimes of Nelson, calling the dance.

Saturday, Oct. 22, French Twirlers of Oliver will host their party night in the community hall with Bill French of Oroville M.C. and guest callers. This will be a Halloween masquerade party with a buffet supper. Happy square dancing.

## AROUND the TOWN

Dr. J. J. Prag drove Mrs. Prag to Vancouver on Monday to see her off on a very interesting five months trip. Mrs. Prag flew from Vancouver to Seattle and there boarded a jet plane for Honolulu where she will spend several weeks visiting friends in Hawaii and the surrounding islands.

From there she will board the S.S. President Wilson for Tokyo, Manila and Hong Kong, visiting friends in Tokyo and spending a few days in each of the other cities. From Hong Kong she will sail on the S.S. Tegelberg of the Royal Intercean Lines to Singapore, Port Swettenham, Penang, Mauritius and Lourenco Marques, again spending a few days at each stop.

From Lourenco Marques she will travel to Durban reaching there before Christmas, then on to Johannesburg where she will remain for about seven weeks visiting Dr. Prag's mother, relatives and old friends. Dr. Prag is planning to join her in Johannesburg for Christmas and they will return to Canada via England and Europe early in March.

Among the Kelowna people competing in the week-long Calgary Horse Show were Miss Lois Underhill, Miss Margaret Wilson, Mr. A. J. Fletcher, Mr. G. D. Cameron, and Mr. R. J. Bennett. Also Mr. and Mrs. T. G. White of Williams Lake, who were formerly Kelowna residents.

Mrs. A. D. Weddell returned on Monday evening from an interesting holiday. Accompanied by Mrs. F. W. Pridham, Mrs. Weddell spent a week at the Bar Q. Guest Ranch at Ashcroft, after which Mrs. Pridham returned to Kelowna and Mrs. Weddell continued on to Lethbridge where she was the guest of her son and daughter-in-law, Mr. and Mrs. S. Weddell for ten days. Returning home via Calgary, where she was the guest of Mr. and Mrs. A. P. Bowsher, she attended the last three days of the Calgary Horse Show.

Mr. and Mrs. Melvin L. Young and family of Vancouver were guests of Mr. Young's mother, Mrs. J. D. Young at the Granger Apartments over the Thanksgiving weekend.

Mr. and Mrs. R. Rattai, Guisachan Road, have grown a most unusual zinnia. The bloom is divided symmetrically down the middle one side being red the other yellow. It is being shown to the Department of Agriculture as a remarkable specimen.

Mr. and Mrs. E. G. Johnson accompanied by Mr. and Mrs. Dan Kempinger drove to Kelowna recently from Yakima, Washington. While in Kelowna they were guests of Mr. and Mrs. Frank Chapman, Lawrence Avenue, and also visited Mr. R. W. Johnson Sr., Harvey Avenue and Mr. and Mrs. Geoffrey Johnson entertaining.

Members were reminded to bring their United Thank-offering boxes to the November meeting which is to be held at the home of Mr. R. B. Spackman, with his daughter, Mrs. Smith, as hostess.

**PURELY LOCAL** Of the sixteen agencies affiliated to the Kelowna Community Chest eight are purely local in origin and coverage. These eight local agencies will receive 34 cents of each dollar donated.

**ST. MARGARET'S WA.** The October meeting of St. Margaret's WA, chaired by the vice-president, Mrs. George Smith, was held at the home of Mrs. Ethel Young on Friday afternoon, with a good attendance.

A letter from the Diocesan Dorcas Secretary was read, and the requisition for the 1961 Dorcas bales which is to be sent to Gordon School, Punichy, Sask. It was also noted that good used clothing could be used in the Diocese of New Westminster. Arrangements were made for

the fall cleaning of the church and for decorating, prior to the Harvest Thanksgiving service, being held in St. Margaret's on October 16. This will be a family service at 9:30 a.m., no Sunday school will be held on that day.

Mrs. Smith gave a short report of Sunday school to date, which now has an enrollment of about 30 pupils.

Members were reminded to bring their United Thank-offering boxes to the November meeting which is to be held at the home of Mr. R. B. Spackman, with his daughter, Mrs. Smith, as hostess.

Mr. and Mrs. R. Rattai, Guisachan Road, have grown a most unusual zinnia. The bloom is divided symmetrically down the middle one side being red the other yellow. It is being shown to the Department of Agriculture as a remarkable specimen.

Mr. and Mrs. E. G. Johnson accompanied by Mr. and Mrs. Dan Kempinger drove to Kelowna recently from Yakima, Washington. ## OYAMA NEWS

OYAMA — The Woodside Church Council met at the Rectory on October 3. Rev. A. Jackson was in the chair with nine members present. After the minutes and the financial report were given much discussion took place regarding the erection of a stained glass window in St. Margaret's, Winfield, to the memory of the late Rev. A. Lett. A metal sign is to be put outside both churches giving times of services. Flowers, fruit and vegetables will be thankfully received for the Harvest Festival to be held later in the month. At the close of the meeting tea was served by the ladies.

A meeting of the afternoon Guild to St. Mary's Anglican Church was held at the home of Mrs. R. Tomkins on October 6. Mrs. F. Eyles, president, was in the chair and eight members were present. Rev. A. Jackson was also in attendance. After all the reports were given it was agreed

Mrs. R. Beedham arrived on Tuesday from Victoria, and is the guest of Mr. and Mrs. Mitchell Lamb, Saucier Road.

Guests of Mr. and Mrs. T. R. Austin, Carruthers St., during the Thanksgiving weekend were Dr. and Mrs. J. W. Hunt and family from Victoria, B.C.

Mr. and Mrs. T. E. Franklin have returned to their home in White Rock, after spending ten days as guests of Mr. and Mrs. A. E. Stephens, Mountain View St., Glenora.

Miss Sophie Atkinson, whose paintings are being exhibited at the Kelowna Library is the guest of Mrs. R. Allison, 301 West Avenue.

**MEETING MEMOS** A meeting of the Canadian Bible Society will be held in the Westbank Community Hall on Friday, October 14 at 8 p.m.

**QUEEN'S NURSE** TEHRAN (AP)—Jeanne Guyon 34-year-old French teacher-nurse has arrived to care for Queen Farah's first child, expected in late October. A male heir is needed for the Shah of Iran's dynastic succession.

# Forest Fire Losses Across Canada May Not Be As Great As Predicted

By ROD CURRIE  
Canadian Press Staff Writer

Now that the smoke has just about settled, it appears the loss from forest fires across Canada in 1959 will not be as severe as predicted during the heat of summer.

The movement of military personnel to battle fires, the evacuation of communities and the closing of forests to fishermen and campers brought widespread publicity during July and August.

But preliminary figures gathered in a cross-Canada survey by The Canadian Press indicate most provinces except Prince Edward Island and possibly British Columbia fared better than the average for the previous decade.

The hazard is not quite over, particularly in Manitoba where severe outbreaks have been known as late as October.

## B.C. HARD HIT

In British Columbia a forestry spokesman said that whether age and cost of fire-fighting but this year turns out to be the worst on record depends on the kind of weather in the next couple of months.

Some fires, mostly in slash areas, were still burning at the beginning of October and years 1960 will be generally worse than last year when the rain came to the rescue.

Already the cost of fire-fighting has hit \$1,467,000 compared with \$50,000 in 1958. The record was \$1,542,191 in 1958.

Until damp weather came to B.C. a month ago it seemed the province was headed for its worst fire year in history. There were major blazes in most mainland areas and at one time more than 4,000 men were on the fire lines.

On the Atlantic coast, Prince Edward Island had its worst forest fires in history. During a two-week period in September fires blazes through an area west of Summerside, burning much of a 300-square-mile section of woods, brush and farm land.

Twenty buildings, including several homes, were destroyed and troops from Camp Gagetown, N.B., were brought in to help fight the fires.

A government committee has been set up to assess the damage and cost of fire-fighting but so far no figures have been released.

More than 20 square miles of pine timber and scrub spruce were burned over before the rain came to the rescue.

In New Brunswick a drought in August also created a serious situation and a large area is still dangerously dry. So far, 139 fires—mostly small ones—have been reported. There were more than 200 fires in 1958 causing damage of about \$70,000. The record year of 1914 saw 371 fires sweep 151,000 acres and cause a loss of \$1,435,000.

Two major fires and a series of small ones hit Quebec. The Grosse Peninsula got the worst of it this year, as it did in 1959. The first major blaze, at Gaspé on the north shore of the lower St. Lawrence in June, burned out some 20 square miles of land, much of it brush. The other, in Gaspe, covered 100 square miles, mainly spruce. But, one forestry official said, much of the woods burned wasn't "much good anyway."

Worst outbreak was in the Indian field area of Shesburne County in southwestern Nova Scotia.

## SAVED BY RAIN

Worst outbreak was in the Indian field area of Shesburne County in southwestern Nova Scotia.

**DOLLAR LOSS** from forest fires in Canada has fluctuated during the last 11 years, rising to peaks in 1956 and 1958 when weather was unusually hot and dry. Graph shows total property loss and fire-fighting costs from 1949 to 1959. Total last year was \$8,632,975. The 1958 peak of \$22,869,963 was one of the worst on record. Loss in 1956 was \$17,521,000.

## PROTUGESE DEMONSTRATOR GROUNDED

Club - swinging policemen stoned them during celebrations in Lisbon, Portugal, marking the 50th anniversary of the founding of the republic.

## WORLD BRIEFS

### SAVE MONUMENTS

STRASBOURG, France (AP)—The Council of Europe's Consultative Assembly is officially urging member governments to support the campaign to save ancient Egyptian monuments of Nubia from waters to be backed up by the Aswan High Dam.

### SAROYAN VISIT

MOSCOW (AP)—William Saroyan, the American playwright and novelist, has paid an eight-day visit to Soviet Armenia, Saroyan, of Armenian ancestry, was quoted by Tass as saying he admired the economic and cultural progress of the country.

### SHIP SALVAGE

JAKARTA (Reuters)—Indonesia is to salvage 280 ships sunk off its coasts during the Second World War. Thirty wrecks, totalling 23,048 tons, are sunk in Jakarta's harbor.

### GUARDS POSTED

WARSAW (AP)—Guards were posted around an experimental farm recently to keep peasants from stealing sheaves of an Italian variety of wheat that produced double the normal yield of standard Polish wheat, the newspaper Dziennik Ludowy reported.

### BACHELOR FATALITY

WIESBADEN, Germany (AP)—The West German statistical office reports a recent survey shows mortality among bachelors is 85.18 per cent higher than among married men. Unmarried women have a death rate 28 per cent higher than the wives.

### ICE EXCAVATORS

AUCKLAND, New Zealand (AP)—Two giant ice excavators are being flown from Switzerland to McMurdo Sound to help build U.S. Antarctic bases for long-term exploratory and scientific work. Building the bases in the ice prevents snowdrifts twisting and disintegrating the buildings.

### PARTY ABOLISHED

ANKARA (AP)—A court decision has abolished the Democrat Party of deposed Premier Adnan Menderes, which ruled Turkey for 10 years before the May 27 military revolution. The court held the Party was a law breaker.

### TOO MANY CATS

DETROIT (AP)—The Detroit suburb of Highland Park has adopted a cat curtailment program. The city council has voted that no home may have more than three cats. Violators will be subject to a \$50 fine or 90 days in jail or both. Police Chief Dewey Schultz said he found 27 cats in one home.

### WINDS KILL SEVEN

CHITTAGONG, East Pakistan (AP)—A hurricane on the Bay of Bengal ripped through the outskirts of Chittagong, killing seven persons and injuring a number of others.

### FIRST NUCLEAR SUB

LONDON (AP)—The Queen will launch Britain's first nuclear submarine next week. Built with U.S. help and with a U.S. trained crew, the submarine, HMS Dreadnought, will have an American reactor to power it.

# NOW FOR '61... 2 TOTALLY DIFFERENT TYPES OF CHEVY TRUCKS!

CORVAN — Side doors open a full 49" wide. Loading height is a low 14".

RAMP SIDE — Roll out the heavy loads — nothing to it in this one!

A GENERAL MOTORS VALUE

NOTHING LIKE A GOOD HOT CUP OF TEA HERE

YMCA men distribute cups of hot tea from a rowboat in a flooded Exmouth, England, street, when town was flooded for the second time within a week. Heavy rains caused the flooding, as elsewhere in the south and west of England. In

background a rowboat is used by school-bound children. Hundreds of homes were deluged. —(AP Wirephoto.)

## Red Terrorists Active Again In Philippines

MANILA (Reuters) — Unrest has returned to the Philippines with resurgent Communist "Hukkalahap" terrorism in remote villages in Pampanga province on the main island of Luzon.

A hotbed of Communist rebellion 10 years ago, the province has been the scene in recent weeks of 13 murders attributed to Huk terrorists.

Most of the dead were former Huks. Seen against the background of Communist guerrilla activity in Laos and South Vietnam, the

liquidations have aroused fears here of another violent Huk campaign. Military authorities said the murders, while not the sign of a full-scale rebellion, could be a prelude to Huk attacks on towns and army garrisons.

For the last six years the Philippine Communist party has been moving quietly—attempts to infiltrate government offices, schools and civic organizations in a "parliamentary struggle."

The Communists adopted this strategy shortly after the backbone of their once 10,000-strong Huk army was broken.

Armed forces chief-of-staff Lt. Gen. Manuel Cabal said recently the Communists had not actually shifted to armed rebellion. But he said there were indications they were preparing an armed insurrection after the apparent failure of their "parliamentary struggle."

Because mass support was essential for a successful guerrilla all four legs and lost his life, campaign, the Communists were but denied a "grab iron" and they buckled a heavy iron pin used to uncouple cars behind the engine, methods failed.

## Fishing Lake Makes Comeback — But This Time With Pickeral

KILLALOE, Ont. (CP)—Round search teams from the Ontario Lake, once full of lake trout, then department of lands and forests barren of fish for 20 years, now came to the lake, testing water temperatures, placing food supplies under microscope and taking water samples. They recommended that the lake be restocked, not with lake trout, but with pickeral. This was an unusual proposal considering the great depth of the lake in some places but research had shown that pickeral would not only live but would reproduce in the lake.

Even the more patient fishermen soon gave the lake up as a lost cause. Then, as suddenly as the trout had disappeared 20 years ago, the pickeral appeared and began biting. Surprisingly, the waters of Round Lake have also improved but fishermen, now in the happy position of having a choice of two varieties, have shown a

preference for pickeral over lake trout.

# Get twice as much for your money

with

**TWICE THE  
PROTECTION**

- 1 Freeze-up protection
- 2 Rust and corrosion protection

**TWICE THE  
GUARANTEE**

- 1 Free replacement of any lost anti-freeze
- 2 No freeze, no rust, no failure

The increased use of aluminum in automotive engines makes extra demands on an anti-freeze. That's why the fact that "Prestone" Anti-Freeze gives you extra protection is vitally important to you. "Prestone" Anti-Freeze does more than give you superior freeze-up protection. Its exclusive Magnetic Film protects all the metal parts of your car's cooling system against costly corrosion and acid contamination.

Originators of the first "no freeze, no boil away, no failure" anti-freeze guarantee, the makers of "Prestone" Anti-Freeze now offer an extra guarantee that could save you up to \$10.00 this winter. The extra guarantee: a free refill of any anti-freeze lost due to any mechanical leakage between installation and Apr. 1, 1961, provided a "fresh fill" of "Prestone" Anti-Freeze was installed by a service station or garage, which must have checked and okayed the cooling system.

There's Twice the Reason for Buying "Prestone" Anti-Freeze this Season

## Hawks Vault To Lead After Drubbing Leafs

By THE CANADIAN PRESS  
Chicago Black Hawks, aided by their six-season career, Wednesday night's game was his 35th. Hull's linemate Bill Hay, winner of the Calder Memorial Trophy ( rookie of the year), assisted on two goals to clinch into a seventh-place tie in the Hockey League Wednesday night.

Hull, the 21-year-old star from Point Anne, Ont., matched Sunday's three-point performance by scoring a goal and two assists as the Hawks shutout the Leafs 3-0. Hull's linemate Bill Hay, winner of the Calder Memorial Trophy ( rookie of the year), assisted on two goals to clinch into a seventh-place tie in the Hockey League Wednesday night.

Hull, who finished only two goals behind Montreal Canadiens' Jacques Plante in the Vezina Trophy race last season, stopped 25 shots to post his first shutout of the campaign.

It was the 32nd shutout for the Humboldt, Sask., native who has never missed an NHL game in his career.

Since Toronto Maple Leafs scored two goals in the final period Sunday to tie the Red Wings 3-3, coach Sid Abel has shuffled two of his players into new posts.

Centres Norm Ullman and Gerry Melnyk have switched lines. Melnyk will fill Ullman's post between Gary Alderson and Howie Glover while Ullman centres Alex Delvecchio and Brian Smith.

Canadians are not expected to make any changes in the lineup.

The 21-year-old native of Point Anne, Ont., scored one goal and set up two others as Chicago defeated last-place Toronto Maple Leafs in Chicago Wednesday night to gain second place in the scoring race.

It was the second game in a row in which Hull figured in all three of his team's goals.

The leaders:

	G	A	Pts
Moore, Montreal	4	4	8
Hull, Chicago	5	2	7
Cullen, New York	2	4	6
Bathgate, New York	2	3	5
Richard, Montreal	2	3	5
Hicke, Montreal	1	4	5
Geoffrion, Montreal	3	1	4
Hay, Chicago	0	4	4

## American League Imports Liven Things Up In WHL

By THE CANADIAN PRESS  
A pair of former American League scoring stars have served notice they will have to be reckoned with in the 1960-61 Western Hockey League season.

Wednesday night it was AHL castoff Lorne Davis who scored the winning goal in overtime as Winnipeg Warriors edged Edmonton Flyers 4-3 before 2,000 Winnipeg fans.

And veteran Bob Solinger, who joined Flyers from the AHL late last season, added another goal to the three he scored in leading Edmonton to a 6-4 win over the Oilers.

Chuck Holmes and Gordon Labossiere scored the other Edmonton goals Wednesday.

TOP POINT MAN  
While Davis scored the winning goal, the top point man for Winnipeg was Brie Ross who scored three times.

Ross, a 27-goal man last season, forced overtime when he scored with 40 seconds left in regulation time. Winnipeg coach Bill Robinson had pulled goaltender Harry Lumley five seconds earlier in favor of a sixth attacker.

Each team was a man short when Davis scored the winner at 3:36 of overtime. Rich Healy of Edmonton and Ray Brunel of Winnipeg were sitting out major penalties for fighting.

Edmonton goaltender Dennis Riggan had little chance to save on the slap shot from the blueline.

Busy throughout, he wound up with 50 saves.

Edmonton played the game without forwards Roger DeJordy and Gene Achymichuk. Neither has signed a contract.

Defenceman Ted Green, Winnipeg's lone holdout, agreed to terms earlier in the day.

In action tonight, Winnipeg travels to Calgary.

## New Pitches Help Whitey In 6th Game

PITTSBURGH (AP) — Whitey Ford Wednesday credited the cultivation of two new pitches—the slider and a straight change-up—with prolonging his effectiveness as a big league pitcher.

"My curve's not as good and my fastball hasn't the zip it once had," said the 31-year-old left-hander of New York Yankees after stopping Pittsburgh 12-0 to send the world series into a seventh decisive game.

"I kept the ball low and had the Pirates biting at some bad pitches. With this slider and change-up, I believe I'm as good as I ever was."

Ford's victory — his second shutout of the series — sent him into a tie with two other Yankees, Red Ruffing and Allie Reynolds, as the winningest of all pitchers in world series competition. They hold seven verdicts each.

HIS 14TH START  
The triumph was also Ford's first in an all-star game. His past record was 6-1 at home and 0-3 on the road.

Wednesday's game marked his 14th start in the world series, also a record.

Ford disclosed in the dressing room that he pitched the latter innings with a blister on the second finger of his pitching hand. He also admitted that he tired midway through the game.

"In the fifth inning I could feel myself weakening and I got concerned," Ford said.

Then Casey (manager Casey Stengel) came out and told me to take my time because he wanted the bullpen pitchers to have a chance to get good and warm in the 19th White Sox, Ossie Bluege of the 1951 Senators and Whitey Kurowski of the 1950 Cards previously turned the trick.

The Yankees accounted for 19 hits as fast, hoping to get the assists Wednesday, two short of side out and stay in the game. The record by a club in a game. This time I knew Casey was the Red Sox made 21 against right. So I slowed down and got out of it."

JUST LIKE A PRO  
Alce Atagi of Kelowna's newly formed Junior Canadian Football team rushes in for a touchdown at one of the team's regular practices at City Park oval. Alce, along with some 30 teammates will see their first league action of the 1960 season Saturday when the Kelowna squad travels to Kamloops. First local game is set for October 21 with Vernon.

team's regular practices at City Park oval. Alce, along with some 30 teammates will see their first league action of the 1960 season Saturday when the Kelowna squad travels to Kamloops. First local game is set for October 21 with Vernon.

## Leos Could Use Bombers To Get To 3rd Tonight

WINNIPEG (CP) — British Columbia Lions, one point behind Calgary Stampeders in the race for the final Western Interprovincial Football Union playoff spot could use Winnipeg Blue Bombers as a stepping stone tonight, but they may find it hard.

The Bombers will be going all-out for the victory, even though they have all but wrapped up their third straight conference title.

The Winnipeg players and fans will be celebrating "Buddy Tinsley Night" in honor of the 11-year veteran at tackle. Coach Bud Grant says the club wants to win for Buddy. The team has requested a special players' meeting, without the balding Buddy, in preparation for the game.

SAME AGAIN HOPED  
Coach Wayne Robinson of B.C. will be using Jim Walden at quarterback, hoping Walden can duplicate his performance of last Thursday when he directed the Lions to a 21-13 win over the second place Edmonton Eskimos.

Robinson says his club is healthier than they have been all season and they're in "jolly good spirits."

Grant, meanwhile, is having problems—he has too many good imports. He said, however, that Roy Jauch will play at halfback, in place of Carver Shannon, and Mike Wright will be back at tackle, relieving Burr Davis.

Kenny Ploen will be the starting quarterback.

Grant, after seeing films of the last B.C.-Edmonton game, said Lions are looking like a new and more dangerous team since that victory.

Mild weather, with temperatures in the high 40s, is expected. Lions have nine points in 12 games, while Stampeders have 10 points in 14 games.

## MINOR HOCKEY LEAGUE OPENS 1960-61 TRAINING SCHEDULE

Minor Hockey League practices for the 1960-61 season were announced today.

First workout is set for tonight when the midgets take to the ice from 7:30 to 9 and the juveniles from 9 to 10:30.

Others are all on Saturday—Bantams, 9 to 11:30 a.m.; Pups, 3:30 to 5 p.m. and Pee Wees, 5:30 to 7 p.m.

All players must present their membership cards before they will be permitted on the ice.

Full rosters and schedules will appear in The Daily Courier tomorrow.

## Tip From Houk Did The Trick For Richardson

PITTSBURGH (AP) — To paraphrase Shakespeare, upon what meat doth little Bobby Richardson feed that he hath grown so great?

"No bar bells, no pep-up pills, no secret potions," the 166-pound New York Yankee second baseman said in explaining his transformation from a puny 252-lb. slugger who has earned some of the proudest and oldest batting records in world series history.

"I guess it was a tip from Ralph Houk that did it. Ralph (Yankee coach) told me at the end of the season that I should spread my stance some more and concentrate on just meeting the ball."

"He told me to quit trying to kill the ball or hit home runs, but just try for placed base hits. He thought it would help me next season. I guess the returns have come a little early."

CAN'T BELIEVE IT  
Richardson said he couldn't believe he had set the record for most runs-batted-in in a series. Three 11th Wednesday in the 12-0 rout of Pittsburgh gave him a total of 12.

Richardson hit a grand slam home run and batted in six runs, also a record, in the third game in New York, won by the Yankees 10-0. He slammed two booming triples Wednesday.

Richardson's current series batting mark is .360. By contrast, his season's average was .232. In the 151 regular season games, he had only 26 RBIs—little more than double what he has in the current series—and he had batted in only seven runs since the all-star game in July.

## HISTORIC WRECK

Bermuda was colonized by accident when Sir George Somers was wrecked there in 1609 on his way from Britain to Virginia.

## Toronto Bids For Baseball Franchise

TORONTO (CP) — Jack Kent Cooke, owner of the Toronto Maple Leafs baseball team in the International League, today made a formal application for an American League franchise.

In a telegram to baseball commissioner Ford Frick and the presidents of the National and American leagues, Cooke said:

"Toronto earnestly applies for admission into the American League's immediate expansion program and respectfully urges that the American League notify Toronto at its earliest convenience so that the new stadium and other organizational matters may be dealt with at once."

"Toronto places its future in major league baseball with the American League."

Cooke sent his telegram following the announcement that the National League had taken the first concrete step toward expansion by virtually assuring Houston of a 1962 franchise. The American League was expected to keep pace by granting a franchise to Dallas-Fort Worth.

## BIG WOMEN'S GAME SET

# City Hoopsters Taste 60-61 Season Saturday

Kelowna Basketball Association will put its wheels in motion Saturday night when both women's and men's teams taste the 1960-61 season with exhibition fixtures.

Probably the biggest feature of the evening will be the preliminary game which will see Melkie "Teddy" Bears against Richmond "A" Dominion champions for 11 of the past 12 years.

In the main contest Kelowna's refreshed Royals will take on Vancouver Labatts, a senior B squad.

THINGS NOT EASY  
Teddies, Kelowna's only Canadian champions of 1960, won't find things too easy this season with outside forces already moving to dethrone the club that has re-written Canadian Senior B basketball history.

The Teddies have won the provincial women's crown three consecutive years and last season became the first western team to take the Dominion title.

However, the Teddy Bears lost three players from the original squad and this year face a rebuild job.

Stepping to the sidelines at the end of last season were Marg Taylor, two others, Sheila Armstrong and Pat Cumming, our sleeve come playoffs," said both first string guards, moving to the coast.

This left Coach Bob Hall with a physically refused to meet the women's and men's teams taste the 1960-61 season with exhibition fixtures.

Added this year are Bina Brown and Doreen Johnston of Trail; Sharon Purcell of Nelson; Doreen Pinski of Oliver; Gloria Yussop of Osoyoos and Irene McKay of Salmon Arm.

Coach Hall has high hopes for Brown and Pinski. He said the two show exceptional promise to become first string Teddies. Brown has been named a starting guard in Saturday night's contest.

Although hopes look bright in replenishing the club, the Teddies face many problems this season.

Biggest problem is the fact they are now without a league and coast teams are not too keen about playing exhibition tilts.

## CFUN THREATENS

Vancouver CFUN, last year a senior A club has dropped to senior B calibre for the purpose of knocking over the Teddies and adding insult to injury the CFUN crew has signed former Teddies Armstrong and Cumming.

"They're going to be the toughest 'B' club we ever faced. But we'll have a few surprises up our sleeve come playoffs," said Coach Hall.

## Georgie Perron Leads Women

Georgie Perron amassed a high three total of 626 in Women's Commercial League bowling Wednesday night and went away with high average honors of 208.

Helen Murray garnered high single with a score of 297.

For the teams it was Sweet 16 with 904 for single and Slowpokes with 2489 in three games.

## Wilf Greaves Reinstated

QUEBEC (CP) — The Canadian Boxing Federation announced Wednesday night it has reinstated middle weight boxer Wilf Greaves of Edmonton, suspended last month for failure to defend his title.

National commissioner Gene Letourneau said Greaves was reinstated after he agreed to defend his title.

Greaves, who is also Canadian middleweight champion, won the British Empire crown from Tiger earlier this year.

Letourneau said Greaves was also suspended by the National Boxing Association and the New York state athletic commission after he did not fulfill a contract for a return bout with Tiger.

He said the CBA had notified both the NBA and the New York commission of Greaves' acceptance of the fight. It was expected they would also lift their suspensions.

## AL Franchises May Be Given Two Teams

By JOE REICHLER

PITTSBURGH (AP)—The American League, in line with its plan to increase its membership to 10 teams, is expected to approve the application of Dallas-Fort Worth and possibly Minneapolis-St. Paul at an expansion meeting next week, probably Oct. 19.

Del Webb, co-owner of New York Yankees and chairman of the league's expansion committee, disclosed Wednesday that 18 applications for membership had been received by his committee for 1962 entry.

Webb said neither the date nor the site had been set but he guessed the meeting would be "a couple of days" after the National League meeting and would take place either in New York, Washington or Boston.

The National League is scheduled to meet in Chicago Oct. 17. Although Webb declined to divulge which cities had the most support of the membership, it was understood that Dallas-Fort Worth was a virtual certainty to be accepted as the ninth team, Minneapolis-St. Paul has the inside track for No. 10 although a group, led by Hank Greenberg of Chicago, is holding out for Los Angeles.

At Toronto, Jack Cooke said he had sent a telegram to Ford F. Dick, baseball commissioner, making a formal application for a franchise in the American League.

"Toronto places its future in major league baseball with the American League," said Cooke. He is the owner of the Toronto team of the International League and was a founder father of the now defunct Continental League. A three-fourths majority, or six of the eight votes, is needed for approval of an applicant.

### NHL LEADERS

By THE CANADIAN PRESS

Standings: Chicago, won three, lost none, tied one, points 7. Points: Moore, Montreal 8. Goals: Hull, Chicago, 5. Assists: Moore and Hicke, Montreal; Cullen, New York; Hay, Chicago. Shots: Plante, Montreal, and Hall, Chicago, 1. Penalties: Murphy, Chicago, 16.

### A FEW TIPS FOR NEW BOYS

Old pro Red Kelly (centre) gives new NHLers a couple of tips. Bob Nevin (left) and Dave Keon (right) made their hockey debut before Toronto fans Saturday night. In Wednesday

night's action the Chicago Black Hawks blanked the Leafs to take over first spot in the National Hockey League.

night's action the Chicago Black Hawks blanked the Leafs to take over first spot in the National Hockey League.

night's action the Chicago Black Hawks blanked the Leafs to take over first spot in the National Hockey League.

## Jim Taylor Leads NFL Carrying

Taylor also leads in scoring with 30 points followed by teammate Paul Hornung, 29, and Bob Walston of Philadelphia, 28. Baltimore's Johnny Unitas has moved past Pittsburgh's Bobby

Layne into first place in passing. Unitas has completed 47 of 93 for 755 yards, tossed six TD passes, has a 50.5 completion percentage, a 5.4 interception percentage, and an average gain of 8.12. The best performance in each category is the criterion.

Layne, in second place, has completed 37 of 67 for a 55.2 percentage and 730 yards, thrown for seven touchdowns, an average gain of 10.99 yards, and has a 9.0 per cent of interceptions. Eddie LeBaron of Dallas is third.

Toronto	0	2	1	5	13	1

### LONDON'S GROWTH

London grew from 884,800 to 4,232,000 in population between 1801 and 1891, an increase of almost 400 per cent.

Norm Van Brocklin of Philadelphia tops the punters with a 48.8-yard average. Abe Woodson of San Francisco is first in punt returns with an 18.5-yard average.

Norway's 1 of ten cod fisheries average an annual production of between 80,000 and 100,000 tons.

### FIRST COURT

EDMONTON (CP)—Five members of the appellate division of the Alberta Supreme Court will fly to Yellowknife, N.W.T., Monday to sit as the first appeal court of the Yukon and Northwest Territories. In the past all appeals have been dealt with at the nearest provincial supreme court.

### COMPUTES FORTUNE

A mathematic physicist parlayed \$5,000 into a \$240,000 fortune in six years by putting stock market data through an electronic computer and following its advice.

## U.S. Crime Rate One Of Highest In World

WASHINGTON (CP) — The

United States has one of the

highest crime rates in the world.

FBI chief J. Edgar Hoover esti-

mated that one serious crime is

committed in the U.S. every 20

seconds—three a minute. Auto-

mobiles are stolen at the rate of

one every two minutes; murders

and rapes are committed at the

rate of one every four minutes.

"America enjoys the world's

highest standard of living," re-

marks Hoover with a touch of

irony, "but at the same time

suffers one of the world's high-

est crime rates."

Hoover has no political axe to

grind. At 65, he has headed the

Federal Bureau of Investigation

for 36 years under Republican

and Democratic administrations.

He has a special agent staff of

6,000.

Wherever he speaks, Hoover

keeps hitting this big point:

"American people are being

fleece by the criminal element

as never before. Our nation's

annual crime bill now totals

\$22,000,000—an amount equiva-

lent to \$125 for every man,

woman and child in the United

States.

"The spectre of juvenile terror-

ism and gang-style intimidation

hangs menacingly over commu-

nity after community," says Ho-

over. "A surging teen-age

underworld—one which practises

the open defiance of the law and

utter contempt for the rights and

welfare of others—has arisen to

challenge the forces of law and

order."

URGES LESS LENIENCY

Juvenile arrests have more

than doubled during the last 12

years in an age group whose

population has risen by less than

50 per cent in the same period.

"Today youthful offenders ac-

count for more than one-fourth of

the arrests for robberies, one-

half of the burglary and larceny

arrests and nearly two-thirds of

the arrests for automobile

thefts."

Hoover advocates a tougher

policy on juvenile delinquents.

Too often, he says, the juvenile

view that he can get away with

anything is fostered by leniency

of officials involved.

In this, Hoover may be reflect-

ing some of the views of Presi-

dent Eisenhower, who seems to

agree that American children

tend to be coddled and over-protected

by their parents.

Eisenhower made that point at

a press conference where he

observed that generally European

children seemed to be in better

physical shape because they

walked and cycled more. The

average American child usually

goes to school by car or bus.

## INSIDE YOU AND YOURS

### Watch For Those Vitamin Poisons

By BURTON H. FERN, M.D.

In spite of all you've read, there are times when vitamin-enriched milk, nourishing soups and fresh golden eggs can be poisonous. While candy and soda pop may prove the perfect antidote. Mothers often massacre their own children with the best of foods at the worst times.

A little germ makes all the difference. You may call it the 24-hour virus, but winter blasts 35-49, and even 144-hour bugs into your home. You can't really check the microbe until the illness starts to fade.

#### INTESTINAL FLU

Like doctors, germs may specialize in one system or follow the general practice of attacking the whole patient. When stomach-intestine specialists or general practice viruses live it up in the digestive tract, intestinal flu explodes.

You can probably trace the virus as the illness progresses. Soon after you swallow the germ, your stomach erupts into a half-digested volcano. Even after upchucking empties everything and you seem to be turning inside out, unproductive dry heaves keep you retching.

#### CHILLS AND FEVER

As the virus seeps into your system, bones chill, limbs shake and fever skyrockets.

Progressing lower down, the virus whips the intestine into furious activity. Cramp follows gripe, as food and fluid rush along intestinal rivers. Strong currents drag vital nourishment down the biological drain before any can be soaked up.

Adults find the intestinal flu annoying; infants and toddlers may find it devastating. Good health demands that children feed on water as well as food each day. Dark sunken eyes, thirsty lips and dry, parched skin soon signal dangerous dehydration.

#### HEALTH-GIVING FOODS

No wonder mothers rush to shovel health-giving foods into their retching offspring. They seize those same vitamin-rich mineral-laden groceries engraved deep in their minds by high school hygiene.

At first, Mother cautiously offers a small sip of water. Sad eyes light up temporarily—until they bulge wet with tears, as new retching begins. Every ounce comes back with interest.

In this gastric game, one will get you five; the extra return stems from intestinal secretions. Moistening those dry heavens merely dries them more.

Later, as torrents splash and gurgle through the intestine, Mother selects a light diet—she thinks. She boils a three-minute egg, pours a few sips of milk or warms up some soup. Her selection soups up intestinal torrents into typhoon-like tidal waves. Each mouthful means more dry starvation.

#### CALL DOCTOR

Before deciding how to treat this ailment, check with your doctor! Appendicitis may masquerade as intestinal flu.

Recently, the 21-hour virus reared through a four-child family, one at a time. As each youngster began to upchuck, Mother called the pediatrician. By the fourth, she had become an expert and saw no reason to bother the good doctor. When the little tyke was rushed to the hospital, doctors removed ruptured appendix!

A blank paper prescribes the magic elixir for the first few

Opening lead—jack of clubs.  
John Gerber, of Houston, Texas, winner of many national championships, is the inventor of the ace-showing convention that sears his name.

The Gerber Four Club Convention, devised some 29 years ago, works essentially the same way as the Blackwood Convention, the chief difference being that it goes into operation at a lower level. The quest for aces starts with a four club bid instead of, as in Blackwood with a four notrump bid.

The great advantage of using Gerber, as opposed to Blackwood is that the desired information can be elicited at a level which permits a safe and early retirement from the bidding if the response is unsatisfactory. It should be added, however, that in most hands the two conventions are equally effective, and that both

## THE OLD HOME TOWN By Stanley

## YOUR HOROSCOPE

### FOR TOMORROW

Be sure that all communications are clear; planetary aspects indicate errors which could cause havoc and confusion in business; on the leisure side you can forget this and indulge in recreation and social activities.

### FOR THE BIRTHDAY

If tomorrow is your birthday your horoscope advocates, in the beginning of the coming year, taking good care of those people whom you care about. You may have a chance to be a hero or heroine and save one of them from a misfortune. Be sure it turns out that way.

Beginning early in May the year is auspicious for entering contests of skill and, lo and behold, your best chance to become suddenly rich.

rat strokes of genius will be coupled with a high intuitive peak, and you may get sudden insights into the purposes of friends and associates.

Favorable affairs of a social nature will reach a crescendo from mid-May to the end of July with a welcome "Indian summer" in September or October. A child born on this day could succeed in almost any profession not involving much physical activity.

so more like it!

THAT'S WHY IT'S CANADA'S BEST-SELLING BEER!

\*More flavour, more life, more satisfaction!

"MABEL BLACK LABEL"

This advertisement is not published or displayed by the Liquor Control Board or by the Government of British Columbia.

methods have advantages and disadvantages when compared with each other.

The response to a four club Gerber bid is in steps, as in Blackwood. A four diamond response shows no aces; four hearts, one ace; four spades, two aces; four notrump, three aces.

Also, just as with Blackwood, an inquiry for kings may be instituted in an appropriate hand, by bidding five clubs (instead of, as in Blackwood, five notrump) when he participates in the hope-

KELOWNA DAILY COURIER, THURS., OCT. 13, 1960 PAGE 1

show of Championship Bridge. He will be partnered with Mrs. Edith Kemp, of Miami Beach, one of America's great women players, and they will play against the formidable West Coast pair of Chico Marx and Ivan Erdos. The weekly series of contests, to be televised nationally each Sunday afternoon, will feature many of the foremost experts in bridge.

**JOIN INTERPOL** — The General Assembly of the International Criminal Police Organization (Interpol) Monday voted membership for three additional nations—Lichtenstein, the Federation of Nigeria and the Republic of Togo. The new admission make a total of 68 countries committed to exchanging information on international criminals.

## Hybrid Aircraft To Make Debut Soon In Calgary

CALGARY (CP)—A new type of aircraft—a hybrid that takes off vertically like a helicopter but flies like an autogyro—will soon make its first appearance here.

The plane, just coming off the assembly line at the Fairchild plant in Hagerstown, Md., is known as the Umhaugh-18, brainchild of a 40-year-old Second World War pilot who pioneered the use of helicopters by salesmen in Florida.

Will Bolan of Calgary, former RCAF flyer, expects to bring in the first of the new hybrids.

Ray Umhaugh, inventor of the craft and owner of an American fertilizer firm, put wings on his top salesman three years ago. The result was so successful that he decided to put all his salesmen into the air. But he found the cost of helicopters too high.

**ROTOR FOR TAKEOFF**

Result: The U-18, described as a refinement of the old theory of flight, applying power to the rotor only for takeoffs and doing away with the need for even a small run on an airport runway.

The plane takes off straight up, just like a helicopter, using a rather simple clutch and gear arrangement on the rotor. The motor spins the rotor to get the craft into the air. Once aloft, a pusher-type propeller moves the craft forward.

Power is disengaged from the big rotor and the action of the air keeps it spinning and acting as a wing while the propeller drives the craft forward. If the engine should fail, the rotor acts as a big pinwheel, easing the craft to earth.

The U-18 can climb 1,050 feet a minute, cruises at 100 m.p.h. at 65 per cent power and has a top speed of 128 m.p.h. It does about 14 miles to the gallon, has a fuel capacity of 34 gallons and can remain aloft for 3½ hours.

Boosters of the U-18 see its potentialities encompassing everything from police work to spot repairs on power, pipe and fence lines, crop-dusting and spraying, even in helping sportsmen find a secluded fishing spot.

## COMPULSORY DRILL FOR EMERGENCIES

## Torch And Tumult Put Navy Trainees To Nuclear Test

ESQUIMALT, B.C. (CP)—Torch and Tumult, names of mock-up hulls on the naval establishment here, mean hell and high water.

The installations are used in compulsory training programs at the navy's nuclear, biological, chemical and damage control school. All of the establishment's 5,000 service personnel have to go through the mill.

Torch is an engine room built of reinforced concrete and sheet iron. The only difference between a fire in it and a fire aboard an actual ship is that instructors ignite 1,000 gallons of fuel oil in a pit under the floor level.

Tumult is a slice of a typical naval vessel. Water rises to chin level when instructors open all valves and students splash around inside trying to find a make-believe "hit," a hole punctured in the hull.

damage and seal the area to prevent flooding other compartments of the vessel.

Lt.-Cmdr. Norman Eversfield, officer in charge of the NBCD centre, is no sadist but he directs a program which teaches personnel the basic drills for emergencies which may occur in peacetime or wartime.

Courses are also given in the detection of radiation and protection against contamination in biological or chemical warfare.

"The basic lessons in fire and damage control are meant to instill confidence in a ship's crew, to show them ways of saving themselves and their ship," says Cmdr. Eversfield.

**NO ACCIDENTS**

"We could teach the dangers of fire and flooding for days, but experience in the mock-ups accomplishes the same thing in a few hours."

ally bring fires in Torch under control in a few minutes. They have the experience of using heat-resistant clothing, self-generating oxygen masks and other equipment in the middle of a real scorcher.

Does Cmdr. Eversfield ever worry that black smoke which pours out of Torch may not all be from burning oil? Never.

There has not yet been an accident at the installation and instructors always follow students into a fire.

The detection and control of radiation is also part of the curriculum and radioactive sources are used to determine the levels and areas of contamination.

**FALLOUT HAZARD**

Nuclear fallout is the greatest hazard aboard ship. New ships are being built with sprays which would wash the contamination overboard.

of a selected group of Canadian armed forces personnel that watched atomic blasts on Nevada deserts, says fallout is a hazard that all personnel should be aware of and able to detect with special equipment.

Most research and training in the fields of chemical and biological warfare are classified but students are warned that they are among the most potent weapons an enemy could use.

The navy's Stadacona establishment at Halifax has a similar school, built since the Esquimalt training centre was opened in 1957.

Members of civil defence and militia organizations, sea cadets and WRENS, are given abbreviated versions of the courses.

**PRINCIPAL CROPS**  
Principal crops of the West African republic of Togo are cocoa, coffee, copra, palm kernels and cotton.

SLAYING VICTIMS

Mutilated body of Kay Chouh-wor, left, 38, of Timmins, Ont., was found beside remote road in Timmins area Sunday. Owen Mickey Feener, 23, of Halifax, was charged in the slaying. He was already in jail in

Fredericton, N.B., facing charges in the death of Toronto model Cathy Essers, right, whose body was found near Fredericton earlier.
